As long as the material is warm, you can shape it any way you want! After it cooled down, it stays that way. This is the book for you! On 52 pages and over 220 pictures you'll get detailed explanations about: Sewing by hand or with a... I always set my tool to the highest setting so this only takes a moment. This is where you will open and close it later. Once you cut away the excess material and turn the fabric inside out, you have a form fitting glove that's just perfect for your next costume! It might not be the proper way to do it, but who follows rules these days anyway, right? But that's what cosplay is all about: Accepting challenges and not being scared of something you've never tried before. Jersey or lycra work great! Grab a second layer of fabric, pin everything together and then follow your marks with your sewing machine. Please help us to share our service with your friends. To keep our site running, we need your help to cover our server cost (about \$400/m), a small donation will help us a lot. You can download the paper by clicking the button above. Just use 10mm thick foam instead and add around 20mm to the sides! ARMOR MAKING - MINI GUIDE | 4 Shaping the foam Now grab a sharp box cutter and cut out the shape by placing the blade into the foam at a 90° angle [7]. Try to keep your arm still during these steps so your pattern will turn out nice and smooth at the end. I decided to use 5mm low density foam sheets since they work better for very curved armor pieces. VAT Sale! Rated 5.00 out of 5 31.96 \$ - 119.85 \$25.49 \$ - 95.49 \$incl. In addition the Kamui Cosplay Community is one of the largest crafting groups on FB with over 16.000 creative and passionate members, always ready to give others a helping hand and good advice. To attach them, simply spread a thin layer of contact cement to the backside of the bevels as well as the area you want to stick them to [10]. If you want to continue with your foam armor, go check out my Book of Foam Armor! There you'll find more information about further pattern making techniques, learn how turn foam into steel and discover how to create all kinds of different armor pieces. As you can see, EVA foam can be shaped with heat. This website uses cookies to improve your experience while you navigate through the website. Once you are done, grab your foam, roll it into a pipe and keep it that way until it has completely cooled down again [9]. Out of these cookies, the cookies that are categorized as necessary are stored on your browser as they are essential for the working of basic functionalities of the website. Easy, right? You also need to prime your foam. To make this step a little bit easier, it helps to bend your bevels with some heat in advance. VAT Rated 5.00 out of 5 9.00 \$ incl. I totally get you and felt just the same! Sewing however, can be really fun, especially when you know a few simple shortcuts. VAT Rated 4.94 out of 5 7.99 \$ - 24.99 \$ incl. Next carefully place some shorter strips of duct tape on top and cover every corner with it. For this example I simply hot glued a 20 cm long separating zipper to both sides of the opening [19-20]. Make some smooth and straight cuts and separate your bracer from the rest of the foam sheet. You also have the option to opt-out of these cookies. This is the book for you! First Release, 2019 Author: Svetlana Quindt Editing & Layout: Benjamin Schwarz Germany www.kamucosplay.com You'll find a detailed write-up of this costume on my blog: www.kamucosplay.com/blog ARMOR MAKING - MINI GUIDE | 9 Make it sew! Besides armor making, there is another big aspect of costume creation that seems to intimidate a lot of people - sewing! Creating sewing patterns is really confusing, and finding the right fabrics often feels like an impossible task. For this project I began with the breastplate. Don't give up though and try to learn from your mistakes. For more super simple sewing tutorials like this, just check out my Sewing Book for Beginners! NOTE Sewing takes time and patience, especially if you are just getting started. ARMOR MAKING - MINI GUIDE | 6 19 20 21 Attachments Last but not least you need to be able to close your bracer. We also use third-party cookies that help us analyze and understand how you use this website. With many years of experience and a never ending thirst to start the next project, she and her husband Benni have already created many award winning costumes and published a long running series of popular instructional books, video tutorials and crafting patterns for home printing. I want to share it in my gallery: kamucosplay.com/epiccosplay Copyright © 2019 by Svetlana Quindt. VAT Rated 4.93 out of 5 Free! Sale! Rated 5.00 out of 5 7.99 \$ - 299.85 \$69.99 \$ - 239.49 \$incl. Easy peasy! Once done, I'm easily able to slip into and out of my super cool new costume piece [21]! NOTE Are you excited and want to build even more? Painting surely takes a little bit of patience, but it's also a lot of fun! To protect your finished paint job, apply a last layer of flexible acrylic varnish. Since the foam has more thickness than your duct tape, add around 10mm of extra space left and right [6]. I'm using satin spray varnish, which gives my armor a nice, smooth shine at the end [18]. Once the material is hot, it becomes soft and flexible like fabric and starts to stick to itself. Also draw a circle around your wrist and one at the top where you want your bracer to end [3]. Sale 17% £16.67€20.00Never made costume armour before? 48 pages and 160 pictures full of detailed explanations about: how to create and layer... Rated 5.00 out of 5 7.99 \$ - 24.99 \$ incl. To keep the material flexible, I'm applying three layers of Flexbond [14]. This means you don't need any glue! Just create your patterns, copy them to thin craft foam, cut it out and cover it from both sides with Worbla (to make it thicker and easier to shape). Following this, use your heat gun to heat up the material evenly from both sides [8]. NOTE The Nergigante armor from Monster Hunter World was one of my biggest projects! It might look super complicated, but in fact each piece still began with a simple duct tape pattern and cutting out foam. Let your glue dry for around one minute and then just press them on [11-12]. If you're interested in any of my other books or patterns, you can check those out on my website: kamucosplay.com Support our free YouTube tutorials on Patreon: patreon.com/kamucosplay You can always find us on: facebook.com/kamucos instagram.com/kamucosplay youtube.com/kamucosplayofficial twitter.com/kamucosplay Made something with my tutorials? Instead of holding your bracer all the time, you can also just secure it with some tape. 1 2 3 4 5 6 Next, cut yourself free [4-5], press your duct tape pattern flat on the table and trace it onto EVA foam. Then when I was done, I used it as a guide, which helped me to build every other piece in the same style. A flat brush with fine hair works best to avoid visible brush strokes! Next, let your primer dry until it's clear again and apply a second and third layer if you want. Shine bright like a diamond Finally, you may also want to add some fancy LEDs to your costume. Even with years of experience, I still struggle with the easiest parts. By cutting the end of the bevels into shape from both sides, I was able to create a nice pointy end for a curved ornament [13]. Sale 17% £16.67€20.00The sequel to my first Armor book teaches you more advanced techniques, especially for creating helmets and pauldrons. Creating a costume from scratch with no previous experience and no idea where to even start might sound like a challenge - but don't worry! After reading this short guide you'll already feel much more prepared! A good place to start learning any new skill is to build something small, like a bracer! It's one of the easiest armor pieces to make but at the same time will teach you all the skills necessary to make all the other parts too! All you need are a few simple tools and materials. Turning yourself into a blinking Christmas tree is not as hard as you might think! Even I managed to understand it and I wasn't very good in math or physics at school! A word of advice though: adding lights to costumes can be highly addictive! Check out my Beginner's LED Book for more! NOTE I installed a lot of LEDs into my Druid Tier 8 costume from World of Warcraft. Many of them also offer cheap or even free material sample sets, which will help you to find just the right material for your project.
